

Notice of Availability

2020 Coachella Valley Regional Urban Water Management Plan and Water Shortage Contingency Plan

On behalf of the six participating agencies, this letter provides notice that six water agencies in the Coachella Valley have adopted the 2020 Coachella Valley Regional Urban Water Management Plan (RUWMP), and each agency has adopted a Water Shortage Contingency Plan (WSCP).

The participating agencies are:

- Coachella Valley Water District
- Coachella Water Authority (City of Coachella)
- Desert Water Agency
- Indio Water Authority (City of Indio)
- Mission Springs Water District
- Myoma Dunes Mutual Water Company

The RUWMP describes the region's water supplies and anticipated demands through 2045. It also describes each agency's programs to encourage efficient water use. The WSCP for each agency describes the actions that could be taken during a water shortage to reduce demands. The agencies have coordinated their WSCPs to provide consistent shortage levels and response actions across the region.

These documents are available on each agency's web site. The web sites are shown in the table below.

Agency	Agency Web Site for Documents
Coachella Valley Water District	https://www.cvwd.org/543/Urban-Water-Management-Planning
Coachella Water Authority (City of Coachella)	https://www.coachella.org/departments/water-department
