

# BUILDING FOR THE FUTURE

## Well 22 Rehabilitation

After careful inspection and testing, MSWD determined that Well 22 needs maintenance and rehabilitation. Planned improvements include new discharge piping, outlet systems, electrical panels, and new pump improvements.

### Current Status **DESIGN**

Design: Summer 2023

Construction: Winter 2023-Summer 2023

### Project Benefits

**Estimated Construction Schedule** As part of its regular maintenance program, MSWD inspects and tests its wells' water quality and performance. The Well 22 rehabilitation projects will maximize flow and ensure future reliability.

### Budget

MSWD has allocated funds for this project under the 2022-23 capital improvements budget.

### More Information

To learn more about this and other MSWD groundwater protection, system reliability, and conservation projects, please contact our Public Affairs Office at 760.329-6448 ext. 145.
