

## Career Opportunity

### WATER PRODUCTION OPERATOR I/II

Mission Springs Water District is currently accepting applications for a Water Production Operator I or a Water Production Operator II to work in our Operations Department.

Under general supervision (Water Production Operator I) or direction (Water Production Operator II), performs a variety skilled work in the activities of the Water Production Department including the operation and maintenance of valves, pumps, wells, hydrants, booster stations and reservoirs, and related equipment; participates in regulatory water sampling and chlorination to ensure clean potable water for customers; performs other duties as assigned.

#### DISTINGUISHING CHARACTERISTICS:

##### Water Production Operator I:

This is the entry level class for the performance of skilled water production, operation and maintenance work. Incumbents learn to perform the full range of duties under close supervision within established guidelines. Upon attainment of required higher level certifications, and demonstration of journey level knowledge, skills, and abilities, employees in this class may be considered for promotion to Water Production Operator II.

##### Water Production Operator II:

This is the journey level class for the performance of skilled water production, operation and maintenance work. Incumbents perform the full range of duties under general supervision within established guidelines, and demonstrate greater knowledge and skill than Water Production Operator I's in performing all aspects of work
