ENGINEERING MANAGER

Mission Springs Water District is currently accepting applications for an Engineering Manager.

DEFINITION: Under general direction, the Engineering Manager, plans, manages, and oversees the activities and operations of the Engineering Department; coordinates the work of consultants engaged in the engineering design of the District's water/wastewater systems and facilities; provides oversight of inspection related services; oversees Geographic Information System (GIS)/mapping and contract administration; oversees the Sustainable Groundwater Management Act (SGMA) compliance; develops the non-potable/recycled water program; and manages environmental programs including interpreting and implementing environmental and water quality regulations.

QUALIFICATIONS: This position requires six (6) years of progressively responsible, professional water engineering work, including experience in supervising the work of others involved in water engineering project activities. The required qualification is to possess a Bachelor's degree from an accredited college or university in Civil Engineering or a related field.

Possession of a valid Class C California Driver's License and satisfactory driving record.

Possession of a valid certificate of registration as a Civil Engineer (a professional engineer in the branch of civil engineering) issued by the California Board of Registration for Professional Engineers.

Possession of or acquire a Grade D2 Certificate and a Grade T2 Certificate within 18 months from time of appointment.
