

Bottled Water Donation Program

Quenching more than just thirst, Mission Springs Water District (MSWD) is proud to support not for profit organizations in Desert Hot Springs through our Bottled Water Program. By providing bottled water, we aim to raise awareness about the quality of our local water supply source and the crucial need to protect it. To ensure a seamless experience, requests for bottled water should be submitted at least five (5) days before the desired pick-up date using the form below. Please send the completed form to PR [at] mswd.org.

Please note that MSWD reserves the right to distribute bottled water at the discretion of its management, and under no circumstances should the provided water be sold. While we do not guarantee water availability for every request, we may consider special circumstances for water delivery with prior approval from management. Water pick-up is available by appointment only on Tuesday, Wednesday, or Thursday between 8 a.m. and Noon, providing a convenient and efficient way to access this valuable resource. Join us in promoting water awareness and conservation through MSWD's Bottled Water Program.
