

Government Affairs

MSWD is committed to protecting your water resources and preparing for the future. To aid in this, MSWD's Public Affairs department works with local, state, and federal officials to introduce new legislation and to monitor current or pending policy initiatives that may impact our water or wastewater programs. These efforts have brought in millions of grant dollars to the District and have helped shape the costly regulatory compliance landscape the District works under.

2024-2025 *Legislative Platform*

The District's Legislative Platform outlines the priorities MSWD has established for the current legislative term. Throughout the year, the Board may also take additional steps to direct staff to oppose or support policy initiatives as they arise.

If you have questions regarding the District’s positions on a legislative or regulatory matter or to request the District take a position or action, please call the Public Affairs office at 760-329-6448 ext. 145 or email us at [pr \[at\] mswd.org](mailto:pr[at]mswd.org).
