

Videos

Mission Springs Water District creates and shares informational and educational videos as well as recordings of recent public meetings. Following are several videos related to our system, customer service, your water supply, and groundwater protection. To access all of the District's videos, please visit [our YouTube channel](#).

MSWD Video Library

Video: Understanding Your Bill

The first step in changing the way you use water is by understanding how much water you use. The best place to find this information is on your monthly water statement. Pull out your water statement and follow these steps to learn more about it and your water use.

Video: Protecting Your Pipes

Don't let wipes or FOGS become Clogs. You may not know it, but every time you pour fat, oil, or grease (FOG) down your sink (e.g., bacon grease), you are contributing to a costly problem in the sewer collection system. Remember to place a wastebasket in each bathroom for solid wastes like...
