

LivingWise Classroom Education Program

MSWD is proud to support our local teachers by providing free materials to share with students. Our LivingWise program provides teachers with lesson plans and other ideas on opportunities to incorporate water-saving tips into their classes.

Teaching a new generation about the value of water lessons that will help them find life-long water savings. To top it off, students receive a conservation kit with items such as high-efficiency showerheads, toilet leak detector tablets, a rain gauge, and much more that they can take home and share with their parents.
